

# PARK PLACE

## PARK PLACE

Built in 3 seven storey blocks on Hatch Street, Park Place is one of Dublin's most prestigious office developments. The three blocks that make up Park Place have a total floor area of 32,000 sq.m. and are interconnected, but also feature three separate entrance lobbies on Hatch Street. The development also includes a retail outlet which will be built into the vaulted substructure of the former Harcourt railway terminus.

We also commenced the fitouts of Blocks A & C for Hibernian Insurance PLC, designed by HKR Architects and Mott McDonald Pettit. Block B will be occupied by Investor Bank & Trust which is designed by WS Atkins.
