

CARTON HOUSE

CARTON HOUSE

HOTEL

Carton House was originally built in 1739, and is one of Ireland's most impressive country estates. The estate includes 1,000 acres of parkland, a lake, boathouse, lodges, woodland and two championship golf courses.

Carton House is a 4 star 165 bed hotel, along with bars, restaurants, a banqueting hall and leisure centre with spa.

The goal of this project is to bring Carton House into the 21st century, with the highest achievable standard in mechanical and electrical services. The main house is a listed structure, and therefore Update Technology's main challenge is to provide state of the art services without impacting on the original features of the house. As part of the contract there is also a new three story bedroom block being built behind the main house, which will house 147 of the 165 bedrooms.

Client:	The Carton House Hotel
Architect:	Murray O'Laoire
Main Contractor:	Pierse Contracting
Consultant:	Varming Consulting Engineers
Construction Period:	14 Months
Scope of Works:	M&E Installation
Value:	€9.0 Million
